**Press Release**

**«DROMEAS in renewable sources of energy»**

The investment in renewable sources of energy of the Group DROMEAS SA in the Industrial Area of Serres has been completed.

Specifically, the parent company, DROMEAS SA, accomplished a project of a Solar Park, of 1MW power at its premises and its subsidiary, KEM S.A., has completed a project of a similar solar park of 0.5 MW power.

The total cost of the project which will reach €1.9 mil. , was funded with a ten year long-term loan of €1.4 mil. From Green Banking of Piraeus Bank.

The above investment meets the basic option and philosophy of the company DROMEAS SA for technological investment combined with environmental protection.
